

Hafid SID-AHMED, PhD

F-38000 Grenoble, France
+33 7 71 76 22 89
hafid.sid-ahmed@outlook.com
LinkedIn : in/hafid-sid-ahmed

Computational neuroscientist specializing in human M/EEG and neural signal analysis, with a strong interest in OPM-MEG and developmental neuroscience.

Languages

French: Mother tongue
English: Professional fluency
(Certified: linguaskill)
German: Intermediate level

Personal Interests

DIY, beekeeping
Cycling, hiking, rock climbing

Skills

M/EEG

MEG-SQUID, EEG, Signal
Processing, Time-Frequency
Analysis, Source
Reconstruction, Experimental
Design

Programming

Python, MATLAB, MNE-Python,
Brainstorm, PyTorch,
scikit-learn, FreeSurfer, Git

Research

Human Participant Studies,
Data Quality Control,
Reproducible Workflows,
Research Ethics & Regulatory
Compliance

Experiences

2022-2026

CEA Leti - Grenoble, France — *PhD Researcher – Computational Neuroscience*

Investigated hypnotic trance using MEG-SQUID and EEG, with 20 MEG and 10 simultaneous MEG-EEG participants.

Designed experimental paradigms and monitored recording quality during acquisition.

Developed reproducible M/EEG pipelines for preprocessing, time-frequency analysis, event-related responses and source reconstruction.

Applied machine learning and deep learning to cognitive-state classification and monitoring.

Analysed behavioural and subjective measures alongside electrophysiological data.

2022

Clinattec / CEA - Grenoble, France — *Intern – Master thesis*

Development of post-processing algorithms to improve movement predictions from decoded ECoG signals

Teaching & Scientific Outreach

- Taught mathematics in a secondary school (2017).
- Taught mathematics to children in an ITEP (Institut Thérapeutique, Éducatif et Pédagogique) (2022).
- Taught statistics to 3rd-year Psychology students (2024) and applied mathematics to 1st-year Mathematics & Computer Science students (2025).
- Ma thèse en 180 secondes (2025); Brain Awareness Week (2024–2025).

Education

2022 - 2026

Grenoble Alpes University, France — *PhD in Models, Methods and Algorithms for Biology, Health and Environment*

2019 - 2022

Grenoble INP - Phelma, France — *Engineering Degree in Signal and Data Processing*

2020 - 2021

KU Leuven, Belgium — *Erasmus exchange — coursework in Statistics and Brain-Computer Interfaces*
